

# NYS 4-H Cavy Project Record

Member's Name \_\_\_\_\_

Address \_\_\_\_\_

\_\_\_\_\_

Number of years enrolled in 4-H Cavy Project \_\_\_\_\_ Age \_\_\_\_\_

County \_\_\_\_\_ Club \_\_\_\_\_

Project Year \_\_\_\_\_

My goals this year \_\_\_\_\_

## **Acknowledgements**

This project record was developed by members of the New York State 4-H Rabbit & Cavy Advisory Committee. Special thanks go to the Cornell Cooperative Extension Associations of Onondaga, Erie, Orleans, Cayuga, Ulster, Orange, Saratoga, Schoharie, Madison and Tompkins for providing volunteer editors and contributors. The intent of this record book is to supply New York youth with a uniform project record format that can be adapted to fit local needs and situations. Whether children choose to raise covies for pets or production they will gain skills in record keeping and time management. In addition to caring for covies, encourage youth to participate in public presentations or community service activities to support animal rescue shelters. All youth can help others learn how to care for new animals. Each year, encourage children to set their own new goals.

If you have questions, comments, additions or suggestions, please contact Cornell University Department of Animal Science, Youth Extension Associate, Dana Palmer, in Morrison Hall. Phone: 607-255-4706, Fax: 607-255-9829 or e-mail: [dlp10@cornell.edu](mailto:dlp10@cornell.edu). Also look for new ideas on the Animal Science Department website at [www.ansci.cornell.edu](http://www.ansci.cornell.edu)

One original hard copy has been provided to each county 4-H office. Please make additional copies as needed. You may also request an original via e-mail.

May 2006

**EXPENSES CONTINUED**

**#1 MEDICINE** – Includes visits to the veterinarian and prescription or over-the-counter medicines.

Date Purchased	Product Name	Amount	Use	Place Purchase	Cost

**Total Cost for the Year** \_\_\_\_\_
